<p>Art. No.</p>	
<p>13583 (4,5 kg) 13290 (20 kg)</p>	
<p>COLOUR: white DENSITY: about 1,38 g/cm³</p>	

PRODUCT DESCRIPTION

Z-A is a polishing compound recommended for use on hard industrial paints and gelcoats. The polishing compound features a creamy consistency, and the abrasive grain used in its production is very efficient. The product can be used with manual machines and in systems with automated polishing machines. In a one-step polishing process, it removes significant defects and sanding marks up to P800 grit (depending on the surface hardness). The ingredients used in it cause good heat dispersion on the polished surface. After the polishing process, the product is easy to clean. It can be diluted with water up to 30%.

- Processing: manual work, dispensing devices
automated polishing machines (roller, head)

STORAGE

Store the product in tightly closed container at 0 - 45°C. Keep away from heat, fire and direct sunlight. Close the containers immediately after each use. Protect from frost. Keep away from children.

EXPIRY DATE

Z-A Polishing compound	24 months from production date
