MULTI
POLYESTER PUTTY

MULTIFUNCTIONAL FORMULA REDUCING REPAIR TIME!

High-quality lightweight, multifunctional polyester putty that combines the features of both filling and finishing putty. Due to its low density, it is also suitable for use on large areas.

- ▲ Very smooth surface after sanding.
- ▲ Reduced process time – no finishing putty required!
- ▲ Excellent adhesion to various substrates.
- ▲ Easy sanding.
- ▲ Easy mixing and application process.

Colour: light beige

Curing time: 20÷30 minutes at 20°C
